

# How To Create A DANGEROUS DOG

**NOISE COMPLAINTS? AGGRESSIVE WHEN OUT ON WALKS?  
DANGEROUS NEAR CHILDREN?**

These scenarios don't help. They make dogs more frustrated.

1.

**LEAVING YOUR DOG OUTSIDE**  
all day to bark at people and/or  
other dogs through the fence

2.

**CHAINING YOUR DOG OUTSIDE**  
all day to bark at people and/or  
other dogs through the fence  
25% of fatal dog attacks have been  
inflicted by chained dogs

## SOLUTIONS!

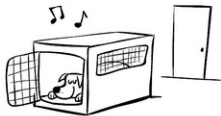

### THE BEST WAY

Keep your dog indoors - happy and relaxed -  
as part of the family

### THE 2ND BEST WAY

When you are out, keep your dog undisturbed  
and relaxed in a crate (no more than 4 hours)  
or in a calm room

### THE 3RD BEST WAY

When your dog is outside, make sure he/she is  
supervised and train him/her to be calm

### THE 4TH BEST WAY

If you have to be away and your dog is  
outside, give him space and a kennel in the back,  
with no view of the street or neighbors
